SUMMARY

Full-stack developer with 5+ years of experience in building user-friendly, responsive, and accessible web applications. Proficient in JavaScript, React, Ruby, and Ruby on Rails, with a track record of 10+ successfully deployed projects. Skilled in remote pair-programming, cross-cultural collaboration, and mentoring. Passionate about solving complex problems and delivering high-quality software solutions.

EXPERIENCE

TECHSPOTDEV, U.S.A

Full Stack Developer (Contract) - Remote, August 2023 – December 2024

- Spearheaded the resolution of critical software bugs, enabling seamless integration with the Giphy API, which improved user engagement by 20%.
- Developed backend services for a restaurant partner portal, enhancing operational efficiency for clients onboarding specialists.

MICROVERSE, U.S.A

Code Reviewer (Part-Time) - Remote, January 2023 – July 2023

- Conducted 100+ code reviews on GitHub, ensuring code quality and adherence to best practices.
- Provided detailed, constructive feedback to developers, improving codebase integrity and maintainability.

NANTOO, Ghana

Ruby on Rails Developer - Remote, September 2021 – January 2023

- Built report feedback and location rating microservices using Docker, Kubernetes, and RabbitMQ, reducing processing time by 30%.

ONIOCHA, Ghana

Frontend Developer - Remote, January 2019 – July 2021

- Developed a responsive website for a food blogging client, increasing site traffic by 25%.
- Implemented Redux and TypeScript to optimize state management and enhance codebase reliability.

EDUCATION

MICROVERSE, August, 2022– May, 2023

Remote Full Stack Web Development Program, Full-Time

- Completed 1300+ hours of hands-on training in algorithms, data structures, and full-stack development.
- Developed strong remote collaboration skills using GitHub, Git-flow, and daily standups.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3

Back-End: Ruby, Ruby on Rails, MySQL Postgresql

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

PROJECTS

[Arha Deals - FrontEnd](#)

- Developed a front-end e-commerce web application allowing users to browse products and contact sellers via WhatsApp.
- Built with Vite, React, TypeScript, and Jest, ensuring a modern, fast, and testable codebase.

[Arha Deals - BackEnd](#)

- Created the backend for an e-commerce web application, managing product data (phones, baby products, reels) and user registration.
- Built with Ruby on Rails, PostgreSQL, RSpec, and Rubocop, ensuring a robust, scalable, and maintainable backend.
